

BNI Internet Banking Fitur baru, lebih lengkap

Transfer terjadwal dan borulong | Mutasi transaksi hingga 6 bulan terakhir | Personalisasi beranda | m-Secure atau aplikasi token

Tips to transact securely at BNI Internet Banking

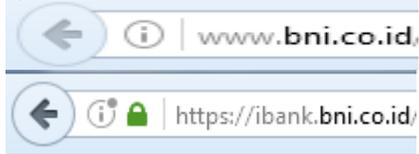

- BNI e-Secure / m-Secure is only used for financial transactions or in data changes activity. BNI never asked to synchronize e-Secure BNI / m-Secure on-screen of BNI Internet Banking.
- The figure below is an example of fraud called token synchronization that asks you to input your BNI e-Secure / m-Secure. If you find it, **STOP TRANSACTION** and immediately contact BNI Call at 1500046 or 68888 by mobile phone.

- In order to anticipate similar case but in other forms of malware, simply **STOP TRANSACTION** if you are asked to enter the BNI e-Secure / m-Secure PIN in unusual way during transacting at BNI Internet Banking and immediately contact BNI Call at 1500046 or 68888 by mobile phone.
- **Make sure you are using the computer that is free from malware, virus / worm, trojan or spyware. Avoid accessing the BNI Internet Banking from an Internet cafe or from a network / computer that can not be sure they're safe. Avoid opening email attachments from unknown senders or download**

unauthorized content or access to adult sites that have the potential to transmit malware, virus / worm, trojan or spyware to your computer device or tablet / smartphone.

- Make sure to access the BNI Internet Banking through the official address of the BNI website in www.bni.co.id and click the login button, or directly to the login page BNI Internet Banking in <https://ibank.bni.co.id> or from bookmark/favorite menu on your browser.

- Beware of unscrupulous fraud attempts on behalf of a bank officer / BNI clerk by telephone, fax or e-mail asking for personal information, including login password, PIN of BNI Internet Banking e-Secure / m-Secure, and One Time Password (OTP) sent to SMS/E-mail, because BNI officials will not request such questions.
- Use the virtual keyboard facility when typing your password to avoid criminal attempts of information stealing (keylogger).
- During the transfer transaction, make sure that the appropriate name and account number belong to the recipient.
- Make sure that you have logged out when you leave your computer even if only for a moment.
- Keep passwords and PIN of BNI Internet Banking e-Secure / m-secure safely and initiate the replacement of BNI Internet Banking password periodically.
- If you find any unusual behavior when accessing BNI Internet Banking web pages, or transactions suddenly cut off, then stop your transaction immediately and contact BNI Call at 1500046 or 68888 by mobile phone.
